Gentlemen:—The piano has had as eventful a career in some ways as any in Japan, I suppose. The steamer it came on was captured and held some weeks by the Chinese. On arriving late in Japan it had to be transported over sundry railroads, and at last carted on a hand-cart 70 miles over two high mountain ranges by terribly bad roads. Since then it has passed a cold winter and hot summer, both terribly damp. In spite of that, and the fact that it has not been tuned since leaving your warerooms, it retains its pitch and tone delightfully.
Yours very truly,

CUBA AND THE UNITED STATES.

Debate in the Senate on Belligerency.

Attacks on Minister Dupuy de Lome.

A breach of Diplomatic Etiquette.

Senator Gray's Charges.

Anti-Spanish Meetings.

Defeat of the Cuban Patriots.

Burning of towns and villages.

Mediation of England and America.

Autonomy of Cuba.

New York, 11th—The debate on the Cuban Belligerency continues in the Senate, no resolution of a definite character has been arrived at. It was agreed at yesterday's sitting to put off a reconsideration of the report on the question till 6th prox.

During the course of the debate angry charges were made by several Senators, principally by Senator Gray, member for Delaware, against the unwarranted intrusion of the Spanish Minister, Mr. Dupuy de Lome, upon American affairs by descending to the columns of the press and to interviews with reporters to give vent to his personal feelings over Cuban affairs, deny the charges made by Senators against the conduct of General Weyler, and criticise the speeches made in the Senate.

Senator Gray stated that the conduct of the Spanish Minister was a gross breach of diplomatic etiquette and would warrant the sending of his passport, but for the transcendental importance that might be attached to such a well-deserved dismissal under the present delicate circumstances.

Sympathisers with Cuba are turning to great account this "faux pas" of the Spanish Minister, and public opinion, as reflected by the press, believes that the dealings of the Minister with the American Government will be hampered by this incident.

Senator Hale's speech, delivered the day before yesterday, has produced an excellent impression in Madrid and has calmed much of the popular effervescence. Meantime, the excitement here against Spain still lingers, and last night at half past eight the students in Nebraska caused a serious riot; they trampled and tore to shreds a Spanish flag whilst marching in procession through the streets yelling Viva Cuba—Death to Spain! Brass bands played Yankee Doodle and the Cuban hymn.

Spanish official advices announce very active operations against the bands of Maceo in Santiago de Cuba. They report another encounter with the patriots in Matanzas. The insurgents were four thousand strong, but were completely routed by the Spanish troops, who set fire to their encampment and hospital, from which the wounded were saved in time. The losses on the Spanish side were insignificant. The patriots lost a score killed and many wounded. Other encounters are reported in Matanzas with the same results.

Both official and Cuban advices confirm the news that the revolutionary forces have burned down the towns and villages of Zuierecan, Union de Los Reyes, and Martucas in the provinces of Matanzas and Havana and Pinar del Rio.

The Cuban Revolutionary Committee in this city announces in a bulletin to-day that the forces of Maximo Gomez and Antonio Maceo have finally effected a junction and concentrated in the province of Matanzas: they have thus again dodged the plans of General Weyler, and in forced marches are now advancing towards the province of Havana.

The news of a proposed mediation of the United States and the United Kingdom to induce the Spanish Government to grant Cuba her autonomy under Spanish sovereignty is semi-confirmed by to-day's London papers, which confirm the report and state that the negotiations between the representatives of the three nations are progressing favorably and will succeed if the Cubans lay down their arms on a promise of autonomy.

Madrid, 11th—The students of Salamanca attempted this afternoon to make an anti-American manifestation, but were prevented from doing so by the police who arrested several of their number.

ITALY IN ABYSSINIA.

Baratieri's Departure from Massauah.

His opinions of the Troops.

Choans repulsed at Godofelassi.

Dervishes Attack Kassala.

Italians Concentrating at Asmara.

Emperor William's Visit.

The Press and the New Cabinet.

Rome, 11th—Telegrams were received this afternoon from General Baldissera stating that General Baratieri had embarked at Massouah direct for Rome. At the landing-stage he was received with all the military honors due to his high rank. The defeated General maintains the greatest reserve, but talks in eloquent terms of the heroism of the troops that fought under him,

The serious apprehensions entertained here last week, as to the fate of the white colonists settled at the small agricultural station in the territory of Godofelassi, have been removed. These colonists settled there at expense of the Government, and their positions were seriously threatened by the Choans whose "razzias" reached the very farms. The colonists repulsed the Choans with success and are now protected from further incursions from the enemy by Italian troops. The colonists can now work their farms without danger.

General Baldissera is in constant telegraphic communication with the Government and gives account of every movement. He is now concentrating the Italian army in Asmara, as the enemy's scouts have been discovered in Okule-Kusai and near Godofelassi: an infantry regiment, whilst reconnoitring, attacked and defeated a group of Choans after a short engagement.

The latest news from Kassala is that Major Hidalgo made a clever sally from the defences and drove the Dervishes beyond Albara. The fort of Kassala is well supplied with provisions and ammunition, and the garrison will remain there, as the place is considered impregnable.

The visit of Emperor William to Italy is officially confirmed this evening. On his route to Abbazia he will first go to Genoa, where he will meet King Humbert. The confirmation of the news has produced an excellent impression in political circles favorable to the Triple Alliance.

The press in general view with favor the Rudini Cabinet.

The *Messagero* asserts that Premier Rudini gives General Baldissera full liberty to direct the Italian Expedition in Abyssinia, urging on him, nevertheless, the expediency of limiting the Italian occupation to the zone bying between the coast and the Mareb river.

The French press has received the new Italian Government with friendly expectations.

In political circles is said that ex-Prime-Minister Crispi has resolved to withdraw into private life and will fix his abode in Naples.

A Mass meeting was held at Pisa this morning to protest against the continuance of the campaign in Abyssinia, and the speakers called on the new Government to withdraw the Italian troops from Eritrea at once. In several other cities similar meetings have been held. At some of them there were fights between the people and the police.

The journals friendly to Crispi are making violent attacks on the new Ministry and are inciting the old majority in the Chamber to oppose it.

The new Foreign Minister has issued a circular note to all the representatives here of Foreign Powers, expressing the earnest desire of the Government to strengthen with all, the friendly relations already existing.

United Kingdom

London, 11th.—The *Times, Standard, Daily News, Morning Post* and other leading papers approve of the New Italian Cabinet, and say that Rudini and Ricotti have shown much political tact in organizing it, as they will have the support of the principal political fractions in the Chamber.

The prison-Commissioners have been entrusted by the Government with large orders for the army and navy, which will be executed by the inmates of the various jails in the United Kingdom. All work done will be credited to the several accounts of the prisoners and the balance standing in their names will be given them on their release.

The semi-official journals categorically deny that England has made the slightest move toward interference between Spain and the United State, to obtain the autonomy of Cuba,

A telegram from Larnaca, Cyprus states that 1200 mules bought by the Italian Government were to-day embarked for Africa.

Germany

Dresden, 11th—The Socialists have started several new Associations in different parts of Saxony, and the leaders are preparing a vigorous propaganda both in the cities and the rural districts.

Count Goluchowski the Austrian Chancellor held this afternoon with the Emperor William an interview of more than an hour's duration. It is admitted that the Triple Alliance was the chief topic of conversation but nothing has transpired respectiug the resolutions arrived at between the Emperor and his visitor.

Sweden

Stockholm, 11th—The electoral reform-Bill for extending the suffrage, drafted by Minister Bostroem has been accepted by the entire Cabinet and with be laid before Parliament immediately.

Servia

Belgrade, 11th—Government has decided to change the present rifle of the Servian infantry for the Mauser which has given excellent results in the recent trials.

Bulgaria

Sofia, 11th—In Court circles it is said that Princess Marie Louise, wife of Prince Ferdinand, has been reconciled to him and will return here in the month of May.

ALARMS ON THE WEST COAST.

Mobilization of National Guards.

Fable of the Wolf and the Lamb.

The Argentine Ultimatum.

Chilians refused the Varese?

Valparaiso, 11th.—The regulations for the drill and muster of the National Guards are being printed. The mobilization, which is a copy of the Argentine one, will be enforced in April: the active guards will go into barracks with troops of the Line.

The interview with Minister Renjifo, published by *La Ley* yesterday, has acted like oil on troubled waters; popular excitement is calming down gradually. The interview has been reproduced by nearly all the Chilian papers. The assurance of the Argentine Minister, Dr. Quirno Costa, that his Government had sent no ultimatum to Santiago has removed much distrust. But the press all round urge the Government to increase military preparations. For the moment this is the all-absorbing topic here in the capital.

The *Liberal Democratico* compares the present situation between Chile and Argentina to the fable of the Wolf and the Lamb!!!

The *Libertad Electoral*, a paper that enjoys ministerial confidence, writes in violent terms against the *Prensa* of Buenos Ayres for fanning a conflagration.

One of the papers states that a well-known Argentine officer in disguise is taking notes in the neighborhood.

The *Ferro-Carril* published to-day a telegram from Rome, dated 10th, stating that the Italian iron-clad Varese had been offered for sale to the Chilian Government, but that, owing to serious defects in the construction, the Chilian Naval Committee, comprising Perez, Gacitua, and Goñi, had reported unfavorably upon the vessel and the offer was thrown out. The same telegram adds that Japan refused the iron-clad, which was offered for 16,000,000 liras, and that the Argentine Government will have to pay much more!

The War-office has ordered the purchase of four bicyles for every regiment of the line,

THE INFLUENCE OF IMMIGRATION.

It may interest our readers, and also a very respectable minority of Argentines, to know that at this moment there is a special committee of the United States Congress sitting in Washington taking testimony on the immigration question, and efforts are being made by North American statesmen to so restrict immigration that a technical test will henceforward be applied to every intending immigrant, failure to pass which will debar him from landing in any part of the United States.

Of course, if such a test were to be applied to the majority of the immigrants arriving in the Plate, three-fourths of the Italians and Spaniards would be sent back to their own country, as the majority of them, to use an Irish expression, "don't know B from a bull's foot," and the River Plate has yet a long road to travel before it can afford to follow in the footsteps of the Americans and establish an educational test to the surplus population of Southern Europe. We are not at all clear that in a country like this it is desirable that the immigrants arriving from Europe should, in an educational point of view, be of a higher class than that which arrives at the Darsena by every Italian steamer.

The North Americans, however, are the shrewdest of statesmen in everything concerning the interests of their own country. They see the decline in wages in the United States for the last ten or fifteen years, which they attribute to the influx of what they call in the States Eastern European labourers, whom we call in this country Italians, and this influx has of late years been so great as to seriously affect the position of Irish, Scotch, English and German immigrants, who are more in sympathy with the institutions of the United States, both as regards the amount they can earn, and their chances of securing employment. The Washington commissioners have paid special attention to the subject of migratory labourers, which is a subject that bears as much on the interests of this country as it does on the United States, and we call the attention of Sr. Alsina, the excellent Chief of our Immigration Department, to the remarks of the American commissioners on this all important subject. They say:—

"Foreign labourers who come and go between this country and their native country", birds of passage" as they have been aptly termed, are a serious danger. Their exact number has never yet been ascertained. The discrepancy between the commoly accepted figures of immigration. since 1820 and the census figures of the foreign-born population shows clearly that a large number of those counted as immigrants have really been aliens who have come and gone (some only two or three times, some more than ten times) and who have taken out of the country the hoards which a standard of living far below that of the American wage earner has made it easy for them to accumulate. The amount of money thus abstracted by foreigners, of whom a very small percentage become American citizens, is unknown, but it is safe to assume from what is known that it is enough to have an appreciable influence on the international movement of money. It has been stated by a prominent Italian banker of New York that the amount annually sent to Italy alone by Italian labourers in this country is 20,000,000 francs, and the chairman of this commission observed that a marked increase in the wealth of certain sections of Italy can be traced directly to the money earned in the United States by "birds of passage".

We all know that the very same thing occurs in this country of which the American commissioners complain, namely that in the months from September to the end of the year the Italian steamers trading between Genoa and the Plate come crowded with Italian labourers to work at the harvest, say for four or five months, and then return with their savings to their native country but we have no means of arriving at the amount of money which these birds of passage take away with them. The difference, however, between this country, and the States is that whilst with us this class of labour is a necessity, in the United States it is considered by political economists a downright injury.

The American commissioners state that the total immigration to the United States from 1783 to June 30th 1894 was:—

17,074,261.

During the ten years from 1880 to 1890 the immigrants numbered 5,246,613, nearly twice as many as in any previous decade since the formation of the United States Government, and over one third of the total for the entire remaining period. Of this vast tide of immigration the proportion from the United Kingdom, France, Germany and Scandinavia varied from sixty four per cent in 1880 to forty seven per cent in 1894, while the proportion of immigrants from Austria, Hungary, Italy, Poland and Russia rose from eight per cent in 1880 to forty two per cent in 1894: and these figures the commissioners think explain the decline in wagee in the United States in the last ten or fifteen years.

The industrial crisis in the United States of 1893 and 1894 was as different from the

crisis in the River Plate in 1890 and 1891 as chalk is from cheese. The U. States crisis penetrated everywher., paralysing business, energy, and driving capital into hiding. Hundreds of thousands of the best workmen knocked in vain at the closed doors of shut-up factories, and even the few who were still able to earn their daily bread knew themselves in imminent danger of enforced idleness. The cry was then raised throughout the United States that immigration was the cause of atl the trouble, and the natural result was a bitter hostility to immigragration, not only in the densely populated districts, whose labour market was congested, but even in the States whose whole future development depended on a generous influx of immigrant labourers, and the commissioners admit that the industrial state of the country did not warrant an increase in population, and that the immigrants should have come, even in decreased numbers, was unfortunate alike for them and for the native poor, of whose scanty relief they had in common humanity to be given a share.

Considering, as we do, that even the most ignorant and illiterate class of immigration from Southern Europe to this country is a gain, then the check which the American Statesmen are now about to impose on uneducated immigration will prove rather beneficial than otherwise for the River Plate. The United States is a great country and the people who rule it are a great people. The Americans condemn what is termed the patron system of immigration, and a law is now before the American Congress to exclude aliens coming year after year to perform labour in the United States without any intention to settle therein. We trust that Sr. Alsina will study this great question and through his influence and that of the Minister bring the subject before the next Congress.

OPENING OE PARLIAMENT.

THE QUEEN'S SPECH.

HOUSE OF LORDS.

London, Tuesday, Feb. 11th.

The second Session of the 14th Parliament of Queen Victoria was opened by Royal Commission to-day with the customary formalities. The Commons having been summoned to the bar of the House of Lords, the Queen's Speech was read by the Lord Chancellor, as follows: —

"My Lords and Gentlemen,

"I continue to receive from other Powers assuranoes of their friendly sentiments.

"An agreement has been concluded between my Government and that of the French Republic, having for its principal object the more secure establishment of the independence of the Kingdom of Siam. A copy of it will be laid before you.

"The Commiasioners for the delimitation of the frontier separating my Indian Empire and the territory of Afghanistan from the dominions of the Emperor of Russia have agreed upon a line which has been accepted by myself and by the Emperor.

"The Government of the United States expressed a wish to co-operate in terminating differences which have existed for many years between my Government and the Republic of Venezuela upon the boundary between that country and my colony of British Gniana. I have expressed my sympathy with the desire to come to an equitable arrangement, and trust that further negotiation will lead to a satisfactory settlement.

"The Sultan of Turkey has sanctioned the principal reforms in the government of the Armenian provinces, for which, in conjunction with the Emperor of Russia and the President of the French Republic, I have felt it my duty to press. I deeply regret that a fanatical outbreak on the part of a section of the Turkish population has resulted in a series of massacres in those provinces which have caused the deepst indignation in this country. Papers on these transactions will be laid before you.

"A sudden incursion into the South African Republic by an armed force from the territories under the control of the British South Africa Company resulted in a deplorable collision with the Burgher forces.

"My Ministers, at the earliest possible moment, intervened to prohibit, thorough the High Commissioner, this hostile action, and to warn all my subjects throughout South Africa against taking part in aid thereof.

"The origin and circumstances of these proceedings will the subject of a searching inquiry.

"The President of the Republic, acting in this matter with moderation and wisdom, agreed to place the prisoners in the hands of my High Commissioner, and I have undertaken to bring to trial the leaders of the expedition.

"The conduct of the President on this occasion, and the assurances which he has voluntarily given, lead me to believe that he recognizes the importance of redressing the legitimate grievances of which complaint has been made by a majority of the persons now inhabiting the Transvaal.

"The condition of affairs in Ashanti, and the violation by the King of Kumassi of the provisions of the Treaty of 1874 in regard to the suppression of human sacrifices, the freedom of trade, and the maintenance of communications, have for some years past engaged the serious attention of my Government. All endeavours to induce the King to observe his engagements having proved fruitless, it became necessary to send an armed expedition to Kumassi to enforce the conditions which he had been called upon to fulfill.

"While I rejoice to be able to announce that the objects of the expedition have been achieved without bloodshed, I have to deplore the loss from the severities of the climate of some valuable lives, including that of my beloved son-in-law, his Royal Highness Prince Henry of Battenberg, who voluntarily placed his services at the disposal of myself and his adopted country.

"I and my dear daughter are greatly touched and comforted in this heavy bereavement by the widespread sympathy that has been shown by my subjects throughout the Empire at home and abroad.

"I trust that the establishment of an efficient British control at Kumassi will put a stop to the barbarous customs which have hitherto prevailed there, and, by preventing the intertribal conflicts which have interfered with the development of the country, will tend to the benefit of the people, and to the interests of peace and commerce.

"Papers on the above subject will shortly be laid before you.

"On the north-west frontier of my Indian Empire the measures taken last year to secure an effective control over Chitral have been successful, and the engagements entered into by the border tribes for the maintenance and protection of the road from Aeshawur have been loyally carried out without molestation or disturbance.

"Gentlemen of the House of Commons,

"I have directed the Estimates for the service of the year to be laid before you. They have been prepared with the utmost regard to economy; but the exigencies of the time require an increased expenditure.

"My Lords and Gentlemen,

"The extension and improvement of the Naval Defences of the Empire is the most important subject to which your efforts can be directed, and will doubtless occupy your most earnest attention.

"I regret to say that the condition of agriculture is disastrous beyond any recent experience. Measures will be laid before you, of which the object will be to mitigate the distress under which the classes labour who are engaged in that industry.

"Elementary schools under voluntary management are a valuable portion of our educational system, and their condition, which is in many places precarious, requires further assistance from public resources.

"The compensation to workmen for injuries received in the course of their ordinary employment has been under the consideration of Parliament upon several occasions. A measure dealing with the subject will be laid before you.

"Legislation will be submitted to you fer the amendment of the defects which experience has shown to exist in the provisions of the various Land Acts which have been passed in respect to Ireland.

"A measure for amending and consolidating the Law relating to public health in Scotland will be laid before you.

"Measures have also been prepared for the avoidance and settlement of trade disputes, for facilitating the construction of light railways in the United Kingdom, for the regulation of public companies, for checking the importation of destitute aliens, for amending the law with respect to the supply of water to the metropolis, for the institution of a Board of Agriculture in Ireland, and for amending the Law of Evidence.

"I commend these weighty matters to your experienced judgment, and pray that your labours may be blessed by fhe guidance and favour of Almighty God".

The sitting was then suspended.

LONDON LETTER.

HOME RULE.

(From Our Own Correspondent.)

March 5th.

Irish politics are beginning to attract attention. The Monroe doctrine suggested to President Monroe by our own English statesman, Canning, was never intended to reach Ireland, but it does. It has so braced the courage of Irish patriots that Mr. McCarthy, from age, failing health and the necessity of gaining his own living, has thought it best to resign the leadership of the National Party. The difficulty of electing a successor within the next few days before the opening of Parliament is very perplexing. All signs point to Mr. Sexton, but the names of Mr Dillon and Mr. Davitt are mentioned. Lord Salisbury, in his unfortunate speech at the Hotel Metropole, I think, repeated his favourite formula—"Home Rule is dead and buried". The Irishmen intend to explain to him he is in error on that point as well as on the Venezuelan question, the American question, the Turkish question the Transvaal question the Egyptian, Chinese, Japanese, German, Dutch, and every other question he has touched. Mr. Morley, who is working away in the Montrose Burghs, does not seem to participate in Lord Salisbury's views, but, like every true believer and valiant soldier of the faith, he sees and is ready to wrestle with difficulties and measure swords with the Tory Apollyon.

The following answers by Mr. Morley at Forfar to a heckling on Home Rule are worth recording:—

Questions being invited, Mr. Morley was asked: Do you still believe in Irish Home Rule, after the manner of the last Bill introduced into Parliament?

Mr. Morley, in reply, said: I certainly still believe in Irish Home Rule. The particular manner in which Home Rule is to be carried out will, of course, be open to further reconsideration, but, so far as I am concerned, it would need no great or organic alteration in the old Bill to make it a bill which I should support.

After practically making Ireland independent, will you justify your proposal to send eighty Irish members to the British House of Commons to regulate and vote on Scotch and English affairs?

That is a sub-department of the last question.

Would you force a Home Rule Bill upon Great Britain by Irish votes?

I should endeavour to force no Bill upon Great Britain for which there was not a majority of votes in the Parliament of the United Kingdom. ("Hear, hear," and cheers.)

Will you admit that the Irish leaders have been openly rejoicing and exceedingly jubilant on the off-chance of our country getting into trouble with other nations, and do you now believe in the union of hearts? (Laughter).

Well, I need not tell you that it is a matter of grief to me that Irishmen should not feel interested in the success of the United Kingdom either in war or in diplomacy. I regret that, but I think that I, at all events, have done the best that in my humble way I could to remove the feeling in the hearts of Irishmen which makes them say these things. (Cheers).

Do you remember if there was any clause in the Home Rule Bill that, in the event of its having been passed into law, prevented the Irish Government from paying bounties on their manufactures?

To the best of my belief these bounties were not prohibited.

As a matter of fact did you or did you not ever hear such a course was contemplated?

Certainly I heard it was contemplated or might be contemplated.

Will you tell this meeting whether or not during the discussion of the Bill in Parliament an amendment to give the Irish Parliament no power over the factory laws was rejected by your party?

To give the Irish Parliament no power over the factory laws—I should have thought I was doing a very foolish thing so far as I am concerned, and the party would have been doing a very foolish thing if they had proposed to allow the Irish Parliament to deal with domestic affairs, and had taken out of these domestic affairs the power of making factory laws. ("Hear, hear," and cheers.)

At the close a vote of confidence in Mr. Morley was unanimously carried.

February 6th.

The Transvaal papers have arrived, and I saw a few extracts. Johannesberg seems to have enjoyed itself with the ladies, and at the music halls the same evening that Jameson's troopers who had come to rescue "women and children" were some of them being buried by the Boers a few miles away. The whole thing seems to be better understood. Mr. Cecil Rhodes, the *Times* and Mr. T. M. Kelly, the sugar bounty man, a friend of Rhodes and Lord Salisbury, will not have all their own way.

THE MARK'S MAILS.

London, Feb. 15th.

In the Commons, an hour was occupied by private members in formally bringing in their Bills. Replying to questions, Mr. Chamberlain said it would be impossible to grant a return containing full particulars as to the shareholders of the Chartered Company, but a list of present shareholders might be given in supplement of an original list. Mr. John Ellis resumed the debate on Mr. Labouchere's amendment to the Address, declaring that no investigation into recent events in South Africa will be complete unless it is extended to the financial and political action of the Chartered Company. Later speakers included Sir W. Harcourt, and Mr. Balfour. Ultimately the amendment was withdrawn. Mr. Harrington moved an amendment calling for the reconsideration of the cases of prisoners convicted under the Treason-Felony Act, in connection with Irish revolutionary movements. The Home Secretary, however, declined to hold out promises of exceptional treatment, and the debate was further adjourned.

At Sofia yesterday the infant Prince Boris was formally received into the Greek Orthodox Church. The ceremony at the Cathedral was attended by the Russian and the Ottoman Envoys, as well as by Prince Ferdinand and the highest functionaries of the Bulgarian Principality. Popular rejoicing was everywhere evident in the streets of the capital, the event being made the occasion of a general holiday.

A circular was issued last night by the National Liberal Federation, calling the attention of their affiliated associations to the annual meetings of the Federation at Huddersfield on the 25th, 26th, and 27th of next month, and stating the order of proceedings. The Earl of Rosebery will address a great public meeting on the concluding day.

Mr. T. M. Healy has addressed a letter couched in most generous terms to Mr. Sexton, urging him to accept the chairmanship of the Irish Parliamentary party.

"Jedbury, jun.," a new light comedy in three acts, was successfully produced at Terry's Theatre last evening.

Sandown Park races were largely attended yesterday. Nepcote secured the Prince of Wales's Steeplechase, while Bouncing Boy was first in the Selling Handicap Steeplechase, Ardcarn in the Cardinal's Handicap Hurdle Race, Martha II. in the Village Hurdle Race, The Continental in the St. James's Steeplechase, and the Seor in the February Handicap Steeplechase.

In the Queen's Bench Division, yesterday, Mr. Justice Vaughan Williams ruled that the holders of founders' shares in the Imperial British East Africa Company (Limited) were not entitled to participate in a sum of 250,000*l.* paid by the British Government and the Sultan of Zanzibar for the surrender of the Company's rights, charter and property.

At the Clerkenwell Police-court yesterday, Madame Besson, who had been several times remanded on a charge of stealing bonds and share certificates, the property of her husband, was discharged from custody, the prosecuting counsel stating that M. Besson, having recovered possession of his child, desired to leave the settlement of the dispute to a civil court, where proceedings were now pending.

The stock markets yesterday were quiet and irregular; but after a dull opening prices closed above the lowest. Consols after touching ⅞108¾, closed ¼ better for the day at 108¾. 5,000*l.* in gold was received on balance at the Bank from abroad. Silver remained at 30 15-16d. per oz., bnt was rather weak in tone.

ABYSSINIAN LETTERS.

Just now, when Abyssinia and the Abyssinians have been brought so prominently before public notice, the publication of two of Ras Maknnen's letters should serve to dispel the last lingering trace of a common impression, that the modern Ethiopians are barbarous savages, about on a par with the Chaco Indians. The writer's first acquaintance with Ras Makunen dates from the early part of the nineties, when he went to Southern Abyssinia as representative of Messrs Arnold, Cheney and Co, of Boston and New York. My wife—the only English lady who has ever travelled in this part of Africa—accompanied me. My little daughter, then about four years of age, also crossed the desert with us, the youngest Abyssinian traveller on record. The road was familiar to me. I had traversed it before on several occasions. But in the interval passed travelling in Australia, India, Egypt, the Soudan, East and Central Africa, many political changes had occurred, and I was consequently a stranger to the local authorities.

The Abyssinian chiefs—with some reason—regarded every new comer as a spy. Being anxious to reach Harar, the last day we rode on in front of our caravan, and arrived at the city gates after dark. It was an imprudent thing to do, for the guard, not knowing who we were, refused to let us in.

In remonstrating with them, the only answer was a shower of stones. For a moment, the hot Celtic blood fairly boiled in my veins, and the grip of my muscles involuntarily tightened over the stock of my rifle; but the absurdity of bombarding the city with my hunting-rifle soon dawned upon me. So we had to make the best of it for the night in an old sentry-box with the hyaenas and jackals howling all round. After all these, rough soldiers were not bad fellows. Some of these very men, when we left the country, followed us for miles on our way and shed tears at parting. Having some little knowledge of medicine and the use of drugs, I was able to do a lot of good amongst them. It is certainly one of the keenest regrets of my life that the fates seem to have decreed, that I should not settle for life in that beautiful country. The freaks of Dame Fortune are beyond all comprehension.

As for Abyssinia, the clouds appear to be lifting, and who knows but she may soon rise to something like her ancient power and grandeur. The bright intellects of her sons only require a favorable opportunity. The originals of the two following letters in the ancient Ethiopic characters, with an English translation by Ras Makunen's Abyssinian Secretary, may be seen in the STANDARD office.

Greetings from Ras Makonen to my great friend Mr. Alex. Mac Donald.

I hope you are in good health, I am well thank God. I received your letters twice, that contain many good advices and loves I am very glad of all your advices. Being restless I could not answer you soon.

Our country was disturbed by the epidemical cholera. Now it has stopped, thank God. It would be very good if there could be found any medicine against cholera and the disease of the cattle. The Winchester rifles have reached Zaila that I bought through your kind medium. I have sent somebody to get them. I am very sorry that the country is very far in which you live. Now, if possible, in regard of the kindness of Sir W. Mackinnon I should like if you would come to us when I return from Shoa. I shall write to you when I return. God may bring us together in good health.

Entota, 7th Dec. 1891.

To Mr. Alex. K. Mac Donald.

Dear friend:

I received your letters you sent through Alaka Geban Desta, and was very delighted to learn by them that you and your family arrived all right and in good health to the coast. Your wise words and good counsels you wrote were welcome to me and I shall try my best to be friends with the English, which has been always my intention. If we can get this friendship by your means, I hope we should and could be together a blessing for the nations round about us. I hope you will strive to accomplish what you began.

As to the things you were going to order for me in case you succeed, please write to me when and where to send you what is due to you.

Wishing you good luck for your hunting excursion; with my many good wishes to you and your family.

I am yours,
Ras Makonen
Governor General.

THE YELLOW FEVER.

The two fresh cases of yellow fever in Belgrano were removed to the Floating Hospital yesterday morning at 6 a.m. the other inhabitants of the house to Martin Garcia.

Dr. Petty had a long interview with Dr. Ramos Mejia, Dr. Señorans and the Lord Mayor. It was decided to have the s.s. Jenner anchored off Belgrano, should fresh cases occur for immediate removal.

Dr. Padilla left for Belgrano last night to take up his quarters in the infected area to attend fresh cases should they occur, and make daily visits to the isolated people; he is under the orders of the Sanitary Commission in Belgrano. Drs. Petty, Ramallo and Billinghurst. Every effort is exercised to stay the spread of the disease.

The important item of the day is a Government resolution that the Public Works Department arrange with the representatives of the San Cristobal-Tucuman and Villa Mercedes-Rioja companies for the taking over of these lines under inventory in pursuance of the law of 14th January providing for their purchase by the Nation. The Department is instructed to set forth with due care the part or parts of the permanent way and the rolling stock or other materials out of repair, and the sums that the repairs would cost in each case, such estimates to be mutually agreed upon by the Department and the companies' representatives, and in case of disagreement referred to arbitration. According as the inventories are made and the sections received they are to be taken over provisionally by the managers of the Andine and Central Norte lines, the former taking the Villa Mercedes-Rioja and the latter the San Cristobal-Tucuman line.

The Argentine Great Western Company lately sent the Government a Bill for $11,435 gold and $170,352 paper for sundry services. The National Railway Board has interfered in the matter, and the account has been reduced to $4,681 gold and $8,136 paper. Rather a formidable "climb down."

LA PLATA.

(From our own Correspondent)

March 11th.

The new Provincial law for the liquidation of the Mortgage Bank will it is feared give rise to some difficulties. One of the provisions, for example, is that every resolution must be signed by an absolute majority of the members. These are in number eight, but as the matter of fact seldom are more than 5 present at a meeting. Consequently on many occasions it will not be possible to pass a resolution as any new proposal may be found objectionable by at least one of the Directors who may chance to be present.

EDITOR'S TABLE.

Mud and mizzle ruled the roast yesterday, and Yellow Jack and the Gold Eagle struck up an alliance to make things still more disagreeable. There was a certain white-liver hue about a good many worthy citizens as they told and listened to all the Three Black Crow stories afloat. We do not think there is any cause for alarm. Carnival, the fruitful propagator of many an epidemic, is over; cool autumn is at hand, and anything beyond isolated cases is most improbable. There was no bombshell news from any quarter. Our Chilian friends have taken to reading the fables of their childhood. The Wolf (Argentina) and Lamb (Chile) is their favourite story for the moment.

With regard to the West Coast telegram in another column announcing that the Chilian Government refused the Italian ironclad Varese as unfit, the leading Engineer and one of the owners and builders, Sr. Orlando, now in our midst, states that it is a bare-faced falsehood, as the Chilians could not pay the price asked. Our Chilian friends are taking altogether too much interest in the Varese, Count Antonelli, and other matters—better mind their own business.

The Radicals are again on the war-path. The way in which the elections were conducted in the province of Buenos Aires and here explain their opposition. We thing that the Nat. Government would do well to hearken to their complaint against the police force: some changes are clamored for by public opinion. None so blind as those who will not see. Minister Zorrilla, perhaps, will not be so short-sighted.

If there should be an epidemic of yellow fever here, accompanied by another of raving lunacy in all classes of the population, we shall make the doctors responsible for it. A population of the strongest-headed race in the world would not be proof against such a report as the following on the yellow fever case in Calle San Juan. Congress should made it a hanging matter for any doctor who dares to publish such a report as the following on any case, even a cold in the head, which, for all we know, may be what is meant:—Miocarditis parenquimatosa, nefritis parenquimatosa ó interstical doble, degeneracion grasosa del higado, gastro duodeno entero colitis catarral, entero colitis antigua, equimosis en la piel, pericrrdio, pleura y peritoneo, calculos en la vesicula biliar.

In Esperanza Colony they are preparing a tremendous racket to celebrate its 40th anniversary. The Governor, Minister, Senators, Deputies and all the big "pelucas" in the province are expected to attend the jollification.

That we should be pestered by Anarchists in this new country is really unbearable. The Chief of Police has called on the Lord Mayor to prohibit the piece "Pan del Pobre" at the Mayo Theatre, which gave rise to some ruction and the distribution of Anarchist pamphlets the other night.

Our naval editor, who suddenly turned up yesterday, has come to the rescue in reference to the question asked by a subscriber yesterday as regard to the weight of a cubic yard. We had to retire to the cellar three times while he was trying to explain it to us. Here is his answer in brief:—"If the weight of a cubic yard is a ton, the weight of half a cubic yard is ¼ of a ton, or 125 kilos."

The gay and festive Gaul Rebuchon, who is "walking" to New York per rail, whenever he can catch a train, leaves Mendoza this morning on his journey. He has published a farewell in the papers there. We haven't seen it yet, but suppose he mentions in Napoleonic style that "forty centuries" are looking down on his senseless exploit.

There were again ugly rumours about the Chilian question yesterday. There is evidently something up somewhere. In Mendoza province well-to-do Chilians are selling their property and leaving for their native land, urged by their relatives there on the ground that war is close at hand.

As can be seen by the advertisement, the Irish pilgrimage to Lujan takes place on Sunday next, and the Western Railway Company have decided to run a special train from the Once, and also issue return tickets from Mercedes, Suipacha and Chivilcoy, at reduced rates. We call the attention of all our Irish readers to this.

We find in the English papers received by the mail something which may interest many of our readers. Mr. Justin McCarthy, in his, "History of our own Times," in speaking of the Balaclava charge says: "All Europe all the world, rang with wonder and admiration of that futile, but splendid charge, and the attack on Balaclava will be memorable in all English history as the battle in which occurred the charge of the Light Brigade. One of the survivors of that brigade has just died, and the London papers give the following:—"The death of William Henry Faulkner has just taken place at Chatham. He was one of the few survivors of the Six Hundred who took part in the famous Balaclava charge. Born in Inverness, Faulkner, at the age of seventeen he joined the 4th Light Dragoons. In the course of a few months he was sent out to the Crimea, and his regiment was speedily under fire. In charging the Russian guns at Balaclava he received a bullet in his neck, where it remained until his death, being deeply embedded in the muscles. The young Dragoon attacked the Russian who fired the shot, and cut him through with his sabre from shoulder to side, severing his body completely. The horrors of the war were too much for a young fellow of Faulkner's age, and he was invalided home, suffering from mental aberration. He was taken to Fort Pitt Hospital, Chatham, and was among the wounded visited by Queen Victoria and the Prince Consort. Upon his recovery Faulkner was the recipient of an anonymous gift of a £5 note and a suit of clothes, and throughout his life he always held the conviction that his unknown benefactor was none other than her Majesty. Upon his restoration Faulkner joined the Royal Marines, and again saw active service in the Indian Mutiny. The naval and military authorities, in recognition of his gallant services to his country, admitted him to Melville Hospital during his last illness, and at the funeral a party of Royal Marines in uniform bore his body to the grave. The deceased was fifty-nine years of age.

The Windsor Magazine for February, which has just been sent to us by our friend Jacobsen of the Book emporium, in Calle Florida, is one of the finest numbers we have seen. The frontispiece bears the features of that Queen of Song, Madame Adelina Patti, and the whole number is on a par with that vision of loveliness. Messrs. Ward, Lock and Bowden deserve praise for their unceasing endeavours to improve and beautify their Magazine. Mr. Jacobsen is open to book orders for subscriptions, and he can supply all back numbers from the very first one to the latest.

The larder (an extension of our cellar) was reinforced yesterday with some samples of Messrs. Clutterbuck's (1150 Centro America) new season jams. Until we have prized off the lids we cannot give a conscientious verdict of the contents, but Mr. Clutterbuck informs us that in a very short time over 20,000 tons have moved off. In the factory only best refined sugar and finest fruit are used. Clutterbuck's Worcester sauce is also a "cosa buena" and is in use in all the principal restaurants.

In Messrs Whitworth and Co's advertizement of Jameson's famous Dublin Whiskey which we published yesterday, their address was given as 331 Calle Esmeralda. It should have been No. 31 in that street. The printer saw double, a not unnatural mistake when dealing with such a potent beverage, which is all the rage at home now owing to the opening of the trial of Dr. Jameson, who is a cousin of the great distillers who make the famous brand of whiskey imported by Messrs Whitworth and Co.

Now Taffy, please take a back seat. Mr. Horton-Smith, after examining a large number of individuals belonging chiefly, to the upper classes of British society has arrived at the following comparative results:—The Welsh are about '8 inch shorter than the English, and as much as 1·5 inches shorter than the Scotch. They are also a slighter race, they weigh less, and are less strong muscularly, and have a smaller breathing capacity. The English, again, are about '7 inch shorter than the Scotch, weigh about 4 lb. less, and are less strong. What about the Irish? Wait a bit Sandy. Don't skirl up on the bagpipes as cock of the walk till we hear what H. S. has to say about Erin's sons.

The enrolment of 20-year-old National Guards gave such an upward bound on Tuesday that there are only 190 short now in this city, and they will be allowed a few days more to turn up. Each of the three Line Regiments to which they are affiliated will have two N. G. Battalions of about 330 men each.

Learning to sing appears to be a stiffer job than we thought, and our intense respect for our Choral Union and other amateur singing birds is immensely increased by the perusal of the following funny paragraph from a musical exchange. What they must have gone through to enable them to give us all the operatic and Oratorio treats of last winter, and which they intend to surpass in the coming season:—"The methods adopted by French singing-masters have been amusingly burlesqued by a French writer. Take M. Delsarte, for example, who lives on a sixth floor at Montmartre.

"When a young man goes to this professor something like the following scene takes place:—

"Have you courage?"

"Yes."

"I warn you my way is severe. But we will try it. Run down my six flights of stairs as quickly as possible, and then run up again, crying out:—'Bonifaccio' in varying tones. Do that for eight days, an hour and a half each day. Then we willsee about beginning lessons."

"The famous M. Wartel is less severe, though equally original. He asks a candidate to vocalise with closed mouth, and, if a protest be entered against the possibility of such a thing, exclaims—"So much the worse. You must do it if I am to be your professor."

"But a well-known tenor employs a stranger method still. A young lady goes to him, for example, and is met by an order to stretch herself at full length upon a couch. She remonstrates, but finally obeys, and then the master piles upon her a heap of books, surmounting the whole with a glass filled with water.

"Now sing", he commands.

"Sing, sir!" exclaims the victim.

"Yes, my child: in singing you must respire as little as possible. When you sing thus, so as not to spill the water, I will undertake your training—not before."

John Bull is trying to be allowed to mediate between the irate Dons and his Cousin Jonathan. As the basis of the business is to be Home Rule for Cuba the moment the rebellion is crushed, there seems small hope of a deal, and this is just what will stick in the stomach of the proud Iberians.

Hurrah! There is the grandest of news from the old country. After years and years of persistent effort, the public museums have been thrown open on Sundays and holidays to the people. This is a splendid reform that will lead to much good. The House of Commons voted the measure on Tuesday.

It may interest the families of the young National Guards who are bound for the manœuvres at Curumalan to know what the Government will supply them with. The list is as follows: uniform, 1 pair boats, top-coat or poncho, kepi, two shirts, two pair drawers, two pair stockings, woollen "manta", knife and fork, brushes, etc., the same as troops of the Line. The lads are advised to provide themselves with warm underclothing, as the wind is very keen at Curumalan from April to June. The Guards will have the best plain food, with 'dulce de membrillo' for 'postre', cigarrillos, the best yerba and the best Tucuman sugar. Of course the troops of the Line will come in for their full share of all these luxuries, and are consequently looking forward to the manœuvres as an enjoyable holiday.

The Kermesse at Montevideo is still booming in the most extraordinary manner. The classes and the masses pour into it on their appointed days, and the sale of Cedulas has reached a fabulous number. Serene above all the turmoil of the Kermesse, Ajeeb the Turk raises his solemn and impassive visage, and proves himself almost invincible at draughts. Every one wants to know how it is done.

Dr. Duvimioso Terra, who was supposed to be in Rio Grande, hatching a conspiracy to overthrow that doubtfully great and good man President Borda, is in Montevideo, and tells the reporters that it is all fudge about his being concerned in a conspiracy on the frontier, for he has been quietly attending to his practice as a lawyer in Buenos Aires. Nevertheless, the Government spies think it advisable to keep a sharp watch on his movements.

The German military papers say that the German officers in the Chilian service are already thoroughly disgusted with it. Their commanding officers are all their juniors as regards service, and, of course, know far less of their business, which riles them and provokes their contempt. They also complain that their pay, which looked so tempting in Germany, is barely sufficient to exist on, owing to the high cost of living. "Ir por lana, y.....!

Our Scotch friends are really very trying whenever the word Sunday is mentioned. Thou shalt not whustle on the Sabbath; nor drink whuskey; nor go to a museum or theatre; nor shalt thou sneeze, or blow thy nose, nor laugh, etc., etc. As a climax the question in bonnie and unco guid Scotland now is, whether those who "bike" on Sundays are not placing their immortal souls in deadly peril (to say nothing of their mortal necks). A Mr. Dawson sensibly says:—"I am by no means prepared to pass wholesale condemnation on Sunday cycling. Take, for example, the case of a young man in a city, whose hours are long, who breathes the greater part of the day a vitiated atmosphere, and has no opportunity of doing anything to restore the balance of health. I think that in such a case there would be no harm done by a spin of twenty or thirty miles on a Sunday, and much good—always provided that the duty of worship is not neglected. The evil comes in when a young fellow cycles all the Sunday, and entirely gives up the custom of going to church. But it is not necessary to do this. At Ripley, and some other places near London there are special services arranged for cyclists, and they are much appreciated. If there is any wrong, it lies in the business system which allows no reasonable leisure, and permits no reasonable care of health. Beyond that I am not prepared to go. With the absolute contempt for religious worship shown by Sunday road-scorchers I have no sympathy whatever. Man is not a biped on wheels, but a creature with a soul and a destiny."

What's on the cards (besides prayer and fasting) for Holy Week, ladies and gentlemen? We hear of the Tourist Club having several outings in preparation, but nothing more. Nobody has yet thought proper to boss a movement to make Holy Saturday a holiday, and thus give a clear spell of four days for a racket in the country at the finest time of the year. The movement to this end in Montevideo has failed, but is a very small potatoe indeed compared with this big city.

The Southern Railway may be unable to find enough wagons for produce; but if it fail to find cars for cheap excursion trains to the encampment at Curumalan when the manoeuvres begin, there will be trouble in the land. Thousands and tens of thousands of citizens will avail of such an opportunity if offered, and the railway will make a lot of shekels out of it. The hotels in the places near the encampment may also prepare for a harvest. Irrespective of the families of the young soldiers, the general public will take intense interest in the manoeuvres, as it is the first time they have been tried in this country.

The Secretary of the St. Patrick's Day Dinner requests us to state that the tickets for same can now be had at Mr. Patrick Ham's Office, 367 San Martin. The price is $26 each; and they will only be sold to Irishmen or their descendants.

Muy Señores mios

Con haber introducido en esta colonia su máquina reformada MacCormick y á mas que en el dia de la fecha para que sea mas completa con la nueva aplicación á la misma máquina del Cutter Bar Frames, he recibido un perjuicio de regular consideracion y un beneficio que supera pero grandemente al perjuicio. Asi se lo manifesté verbalmente á su representante Sr. Jorge Winter. El perjuicio es que tengo muchas máquinas, segadoras de alfalfa y no sé que haré de ellas porque mis chacareros no quieren mas que MacCormick, y el beneficio es que teniendo alfalfares "sembrados espresamente con muchos graminios" todavia no habia encontrado máquina las cortara tan perfectamente como estas. Como en el año proximo cortaré mas de 2000 hectareas de alfalfa semilla y es alli donde se ven las buenas máquinas, les pediré algunas mas, segun venga el corte semilla, este año necesitaré dos. En un concurso, quisiera ver como se puede probar que haya maquina que supere á esta.

Gold Premium

FIRST RING	209.00%
SECOND RING.....	210.50%

A keen bullish blast swept through the gold market this morning and spread a panic in bearish quarters. Accustomed as the market has been to insignificant daily fluctuations, this morning's sudden jump in gold caused nothing short of amazement in the hall, and a stand-from-under feeling made the speculation very lively at the ring.

The cause of the uproar was a report that the yellow fever had taken root in Belgrano and was spreading. This is, no doubt, quite true, unfortunately, but the gravity of the cases and of the contagion was purposely exaggerated to influence the price of gold. The fever is not stationary, in spite of all the fumigation and disinfection of the Health Board, but its progress is also of the slowest description and, furthermore, it is localized. The Health Board, however, would do well to adopt the most energetic measures to stamp out the scourge, though the steps taken may alarm the population.

Another factor in the rise was a whisper that political affairs on the West Coast are entering a critical phase, owing to the opposition of Barros Arana and his adepts, strengthened by the old Balmaceda faction. Private letters, received to-day from Santiago, leave no room to doubt that public opinion, generally so sedate in Chile, has suddenly taken alarm at some sudden twist in affairs in the Moneda. The propaganda against the Chilian Cabinet may result in its fall, and this will certainly not improve relations with Argentines, who look upon Minister Guerrero as a guarantee of a peace policy in Santiago councils.

Perhaps the most direct and efficient cause in the sudden turn in the gold market is the unexpected fainting fit in our exchange situation. One of the banks walked in to-day and made a clean sweep ot bills, leaving the market in a weak condition at following rates, viz:—

48 3|16 d. on London.
5.08fcs. on France.
5.09 fcs. on Belgium.
4.12 mks. on Germany.

The big taker this morning has evidently smelt a rat, and his sudden appearance in the market was nothing short of a disagreeable surprise. Exchange brokers are of opinion that the weakness in rates is a mere flash in the pan.

Over one million gold dollars changed hands this morning in a highly excited market and feverish speculation at the ring. Many of the big bears who made such a haul in the recent fall turned round and began bulling freely. Outsiders caught the contagion and helped to put up the premium in their scramble to secure gold for cash and on time. Business for cash embraced four hundred thousand gold; the premium opened at 204.80% hard enough, but nobody was prepared for the helter-skelter rise that ensued; it rose like a rocket to 208.50%, fell back to 207%, rose again in a semi-panicky speculation, and closed at 209%—say over five points higher than yesterday morning. Over three hundred thousand dollars were sold at a sharp contango of 3 points for the end of the month; the premium opened at 208%, rushed up, and closed at 212%. Four hundred thousand dollars were picked up for the fortnightly settlement, next Saturday, at cash prices more or less. One hundred thousand dollars were sold for the end of April; the premium opened at 212% and closed nominally at 213.50%. A small business was posted for end of June at 217%. The market closed in the midst of a strong, bullish speculation, but somewhat flat at closing rate for cash.

Telegrams from London this morning announced a sharp rally in Argentine stocks: the Funding Bonds had fallen to 82, but reacted to-day, also the Public Works Loan. This news may have helped to keep up prices in stocks and shares here this morning. National Cedulas F were in better demand and closed in advance at 83. La Plata Cedulas made a stand at 18¼. Internal Bonds of 1891 were quoted at 75 and those of 1892 at 75¼. Funded Bonds of the Floating Debt were steady at 80 and Depositors' Bonds of the National Bank rose to 99. Catalinas put in a flitting appearance at 4.70.

The money market shewed no symptoms of ease; the squeeze continues, and the "pase" on Change has advanced, at the banks paper bills are steady at 8¼ to 9%. Gold bills nominal at 7%.

Telegrams from Rio Janeiro reported exchange weaker to-day, the rate on London closing at 8 1/16 d.

The following is a summary of the business effected at the first ring to-day:—

Up country they do not seem to have shaken off yet the relaxing influence of the electioneering epoch, as there is no news, of a commercial nature at least, to report. In Cordoba and Santa Fé the rain has been general and done a world of good, though in the former province there was also soms hail which did a little damage. We see Messrs. Francisco Uriburu and J. B. Medici have arrived in San Juan on a visit to their vineyard which is one of the finest in the whole province, situated in department of Caucete; they are accompanied by Dr. Mendez, Bolivian Minister, J. A. Uriburu, and Engineers Dormal, Monta and Borzone.

Over the river they are not quite agreed about the loan business yet, as there is still same difficulty with regard to the railway—a pull devil-pull-baker snag up that threatens collapse, unless the law of compensations is stretched to mutual satisfaction. It was reported that the Government had "squared" with Dr. Herrera and fixed the whole business up, but later advices report tension still on, and the doctor stuck fast. The corners to be smoothed away are apparently financial ones, but people in the swim hint that they are really political, which gives the business a much wider range and probably increases the difficulty. It is a very mixed problem altogether.

Our outside correspondents report heavy rains in the following districts:—

Balcarce, 9 de Julio, Loberia, Azul, Navarro, Capilla, Las Flores, Saladillo, Chivilcoy, San Nicolas, Ramallo, San Martin, Cañuelas, Carmen, General Sarmiento, Coronel Dorrego, Campana, San Pedro, Rojas, Las Heras, Almirante Brown, Barracas, Juárez, Lujan, General Rodriguez, Tigre, Pilar, San Antonio, Supacha, Merlo, Salto, Moreno, Lobos, San Fernando, Chacabuco, Monte, Zarate, Arrecifes, Lomas, Moron, San Justo, Brandzen, Quilmes, Baradero, Laprida, Olavarria, Sierra Chica, General Villegas, Junin, B. Blanca, Tandil, 25 de Mayo, General Alvarrado Bolivar.

There are some very big liquidations going on that of course the market has been aware of for some time, though pending arrangement details have not been made public. Standing out clear above all the others comes the Kemmis estate in Cabaña de Gomez, the splendid estancia Las Rosas, perhaps the best known property in the whole republic, the birthplace of all or at least the greater part of our turf celebrities, Mr. Kemmis's estancia has been famous also for its stock of every kind, and the whole market regrets to see such a historical estate, if not actually reduced to the hammer, at least passing into the hands of creditors for the implacable liquidation that knows no sympathy, desides history, and is insensible to associations. It is like a landmark passing away, as Las Rosas, severed from the name that made it famous, cannot carry on its chain of the times that are and times that have been. Its history closes in the law courts of Santa Fé—doomed financially. Whether it arises whole again from its ashes or drifts apart dismembered and disguised, it will never be the Las Rosas of old. Peace to its memories. According to the details of the arrangement the London Bank takes over the estate and liabilities, the latter being estimated at $600,000 gold, pays off the R. Plate Trust Loan Co, a mortgage of $80,000 gold in full and the creditors 60%, the bank itself being in the list for $250,000 gold. It also pays Mr. Kemmis £600 stg for three years, and this winds up the whole business.

Another very large difficulty announced is that of an importing firm working over 20 years in the market. and which has had to apply to the Courts for a moratorium, the assets being returned at $600,000 and liabilities at $400,000. Pressing obligations necessitate the application to the Courts.

Another, and this the fifth, distribution of the Carabassa estate. Dr. Centeno has authorized the further distribution of $2,500,000 to the widow and $500,000 to each of the other heirs. Several important items of the assets still remain to realize, consisting mainly of mortgages &c. which mature slowly. It is only as the liquidation goes through that the enormous value of the estate left by the late Mr. Carabassa can be estimated. It looks at present as if the heirs will have received over 30,000,000 before the business is closed.

Mr. Watson, manager of the great Funes estate in the South of Cordoba, his station being Santa Eugenia in the Villa Maria and Rufino line, was welcomed today. He reports the locusts now all gone and the alfalfares doing splendidly. Mr. Watson is the pioneer of the district. When he went there what little alfalfa there was had been grown with a strict regard for irrigation, and when he started growing without the "water-works", seeing that the land had been specially fitted, as it were, by Providence for alfalfa, the neighbours thought him crazy. But time has shown the method of his madness. On the Funes estate of five square leagues there are now 6000 hectares of alfalfa and Land Bros who are neighbours, are also making a big alfalfar. This district is in fact now one great Alfalfa field, spreading as fast and teadily as a prairie fire. But strange to say no business is done in the hay line. The estancieros use their al alfa exclusively for fattening stock. It shews what can be done with a desert, as Mr. Watson says; when he squatted down there the whole department was bare and arid, the neare t station Villa Maria, and land to be had almost for the asking. Mr. Watson confirms the wholesaleness of the damage done by hail and locusts to the crops, but he says that those who escaped are very sq arely on their legs, splendid yield and excellent quality. Cordoba is working up very steadily.

The gold market ruled awfully bullish at the second ring, far more so at one moment than in the panicky ambient of the morning. The sticky atmosphere was full of rumors not worth recording. Two hundred thousand dollars were sold for delivery to-morrow; the premium opened at 208 1/4 %, fell to 208 %, than rose like a balloon in the most sudden and erratic fashion to 209 %, to 211 1/2 %, and touched top-price at 212% in the midst of the dismay of both bulls and lears; a calm ensued and the descent began slowly, the market closing quiet, but firm, at 210 1/2 %. A quarter of a million was sold for the end of the month; the premium opened at 210 1/2 %, rose to 214 %, and closed at 213 1/2 %. Another quarter of a million was sold for the 14th at same rates as for to-morrow. The premim for end of April closed at 218%. About nine hundred thousand dollars gold changed hands during the second ring. Spanish Bank shares advanced to 111 1/4 and Catalinas to 4.80. La Plata Cedulas fell to 18.10.

The Minister of the Interior has referred to the Procurador del Tesoro the appeal of Messrs. Breyer Bros against the "Marcas" Office refusing them a patent of invention for improvament in "war safes" etc.

The Salubrity Works Commissioners have informed the Minister of the Interior that they have examined item for item the account for $835.041 sent in by the exlessees of the Works for ordinary expenses and that the real amount due to the leasing Company is only $245,051.

The Centro Maritimo Nacional has petitioned the Finance Minister to revoke Article 10 of the decree of July 1891 ordering that the transhipment of goods in transit from La Plata to Buenos Aires be effected by the Ensenada Railway. The Centro says that merchants should be allowed to transport their goods by whatever way best suits them. So they should. Not a doubt of it.

The Minister of Finance has fixed the price of gold for payment of Custom-dues at 310 for Thursday, March 12th.

SALES AND AUCTIONS.

Mr. J. M. Benitez, the well-known land-broker, has sold 6 leagues of land in San Justo, Santa Fé, for 182,000$ m/n. Seller, the National Bank, buyer, Messrs. Harteneck and Co. This land formerly belonged to Mr. J. Arrufó.

A new departure that speaks well for the keen enterprise and broad views of the company and its manager is that now taken up by the Fabricantes Ingleses, which, not wholly content with stimulating industrial and pastural pursuits by supplying the very best class of machinery, has actually now gone into active business as importer of live-stock, and with such thorough grasp of the details that the first operations have given a splendid result, as will be seen from the following list of a batch of Lincoln rams landed here on February 12th from s. s. Cyrene and sold:

		At $ each	Buyer
2	Lincoln rams	800	Ramon Milani
6	" "	600	M. Arrupea
6	" " for	1844	R. L. Rumboll
5	" " "	2050	" "
2	" " "	1000	Purvis & Good
2	" " "	1175	T. Aldabe
1	" " "	700	"
1	" " "	650	B. Tellechia
1	" " "	650	Felix Miró
1	" " "	700	J. Keen
1	" " "	700	A. Greco

They have furthermore on sale at their deposit in Calle Balcarce a lot of 12 rams from the well-known Cabaña of Mr. W. J. Brooks of Boughton Grange. A splendid batch that should fetch rattling prices, as also a consignment of 34 head from the leading English Cabañas, to arrive in the ss. Italian Prince. We hope at opportunity to give the prices of all these animals and congratulate the Company on the success that has attended their efforts.

The sale is reported of 3 leagues of camp in the Province of Santa Fé, Depto. Las Colonias at the rate of 150,000 the league, buyer Dr. Manuel J. Moreno, brokers Messrs. Gonzalez and Co.

All interested in lands in province of B. Aires should attend the auction in the La Plata Land Office to-morrow when the following will be offered:

1171 hectares in Balcarce, reserve $19 the hectare.

193 hectares in General Lamadrid reserve $13 the hectare.

834 hectares in Lincoln, reserve $10 the hectare.

1013 hectares in Trenque Lauquen, reserve $7 the hectare.

47 hectares in Olavarria, reserve $40 the hectare.

All the reserves seem fairly low, and conditions of payment easy, 1/4 cash and the balance in three yearly instalments. It is a favorable opportunity for investing spare capital.

PRODUCE MARKETS.

What can it be called? Whatever it is, a complete relapse has come over all produce circles. It was perfectly in vain that one sought for news, everybody was as quiet as a mouse, all were evidently frightened that the cat might take the lead. This situation cannot last long, as the rise this evening in the gold premium is bound to tell on the markets to-morrow morning. These abstruse questions do not help the farmers, on the contrary, everybody is kept in suspense, and from a logical point of view. everything evasive should be shut out from the market quotations.

Wheat and maize and even linseed are at loggerheads with buyers, the only men who dare step in to compete for grain are the local millers, but the heavy feeling was even too strong for them, and the small operations they realized were made at nominally small figures. A few parcels of Entre Rios wheat were sold by one of our well known brokers at 7.20, the price in comparison with those paid here is not at all bad. A parcel of wheat was sold in London at 25 and 9 pence, but the market tumbled to 23 and 6 pence, the Antwerp rates were at 14 1/4 francs. The market here closed with a falling tendency, but one cannot depend on the fluctuation of the daily quotations, as tomorrow one may see articles soaring which were considered a regular drug in the markets.

Owing to the want of light the attendance of artistas in the Central was remarkably small, and no wonder, for the last three days a general fall in the temperature was noticed, but the "finale" has not yet arrived. Combed wool "type B" was sold this morning in Antwerp at 4,35 1/4 francs; as regards the London auctions nothing new is known. The sales this morning were as small as they could have been, not even 200,000 kilos were sold, it stands to reason that when there is not sufficient light to qualify the various fleeces it is quite impossible for men like 'artistas' to operate. Prices are as usual, the wool most sought for being fine merino.

The principal sales were as follows:

CONSTITUCION.

Fine wool—40000 kilos at 6.30, and 6.75
Borrega do—17000 kilos at 9.40, 1000 do at 6.
Sheepskins consumo—30 dozen at 0.71, 10 do do 0.72, 15 do 0.65.
Do Desechos—20 dozen at 0.54 10 do do 0.52, 10 do 0.45.
Do Estacion—80 dozen at 0.45, 80 do 0.44.
Desechos do—30 dozen at 0.24, 20 do 0.18, 10 do 0.16.
Cow hides—440 hides at 8.80, 50 do at 8.50, 20 do at 8.20.
"Nonatos"—25 do at 10.50.
Horse hides—110 do at 6.20 and 6.50.
"Becerros"—25 do at 10.50.

Every day there is a falling-off in cereal business the only hope is that the decadence has reaced its climax. The dead-lock between buyers and sellers is killing the animation in the markets. The "flojedad" in wheat is painfully visible, the barleta, superior was quoted this morning at 7.70. Some parcels were picked up at 8.20 but these were bought exceptionally. Where are the old prices of 8.30 and 8.50 gone to? When one considers that a superior lot of French barleta only fetched this morning 7.80 it makes one wonder at the sudden variations of the markets, a week ago the same lot would have been sold at 8.30. What makes the situation more peculiar is that in face of a rising premium, one finds, instead of a rising spirit, a depressive and slow movement.

The reaction in the Gold Eagle may not have had time to animate operations and probably to-morrow a vast difference may be noticed.

Yellow maize was sold in the Once at 2 60 and 3 dollars, in the Catalinas at 3.10 and in the Riachuelo at 3.20. Mr. Emilio Saenz sold in Rio Santiago 2,000 bags of maize at 3.20 and 5710 in the Grand Dock in La Plata at 3.35. Both parcels were bought by Messrs S. Zoppi and Co. Morocho maize closed slack.

Linseed was sold at 8 and 8.50 in the Once. For Villa Constitucion 250 250 tons were sold at 9.00. A cargo of linseed in London obtained only 30 and 3 pence, showing a fall of 3 pence in 24 hours, in Antwerp it maintains its own being still quoted at 19 1/4 francs. The operations, however are not large enough to change the general run of that market.

We have received the following from Tucuman. Very little done in commercial circles during the past week. Nothing worthy of importance was effected. Sugar and alcohol are dull and their respective prices falling. Sugar lies like lead on the market, the following are the prices:

Squares No 1..... 3.40 the 10 kilos
Fine good..... 2.90 " " "
Fine middling.... 2.60 " " "

Defective classes find no outlet, and all operations in these classes are only effected at 5% discount.

The confidence in the sugar market seems to have suffered a rude shake; a month ago sugar planters were in the best of spirits, but the question of raising a tax on the production of this useful article, told very heavily on all circles.

The same old tune in Rosario, little or no annimation in cereals. Depression is stamped on the "consignatarios" faces, who having large quantities on hand are unable to find a buyer, willing to meet their prices half way. The demand for wheat is limited solely to the millers, and now and again a few hurried exporters step in a buy some small lots to complete their cargoes. The current market rates is 7.00, but exceptional lots fetched from 7.10 to 7.20. Sellers still hold back waiting for a favorable opportunity, the impression is that the moment gold rises there will be a radical change both in prices and operations. Large transactions have been made in the colonies, but prices are kept under reserve. Unfortunate maize, whatever little life it possessed is fast dwindling away and nothing is noticed in the markets except the huge piles which sadly look on at the general depreciation; the highest price paid for this grina is 3.20 and to fetch so much parcels and parcels have to be revised. Linseed is "mas ó menos" in the same boat. In fact should the present situation continue, it will be quite useless quoting these two last grains as all interest for them seems to have died out. In linseed 9 and 9.50 are the present rates.

The bad weather during the morning paralized all business in Montevideo. Where the pinch told most was in wheat, as several of the cargoes which arrived were unloaded in a damp condition. Owing to this circumstance a rise was observed, for good classes; 2.70 was offered, but the seller did not care to accept the offer. The reticence on the part of sellers created a regular damper, not a single bag was sold.

Maize stationary, neither budging one way or the other, little interest was shown by exporters, the consumo brought up 500 bags at 95 cents.

The Giovanni Ansaldo has been chartered to load 1300 pipes of tallow at 18 francs.

The latest telegrams from Brazil report a stock of 1,584,000 of jerked beef or say 354,000 kilos from Rio Grande and 1,230,000 from the Plate.

More activity was noticed in the saladero line. The Arroyo Negro sold 80 pipes and 40 bordalesas of tallow at 9.10 on board. The Casa Blanca saladero sold 175 pipes and 150 bordalesas of tallow at the same price. The Paso de los Toros also sold 40 pipes do at the same price. Messrs. Arrivillaga and Co. sold 100 bordalesas on the same condition, Messrs. Calvo, Croker and Sons sold from 1 to 2000 salted hides at 18 the 100 kilos.

Next to nothing was done in wool, the barracas and deposits have had a very easy time of it to-day. Prices have not changed, owing to the want of competition.
